

Sibilla **de** Vuono

Sibilla de Vuono

About

Sibilla de Vuono offers distinctive image consulting services. Over the course of the past five years, Sibilla has established an A-List clientele base of fascinating women from far and wide.

As a citizen of the world, she has formed a solid cultural affinity and understanding. Sibilla's sense of style and aesthetics are highly influenced and bred by her Italian roots. She grew up appreciating history, assessing art and architecture as a dominant part of her inspiration and creativity.

Collaborating with luxury groups and fashion houses such as Stella McCartney, Vionnet, Fisico, Prada, Bulgari Hotels, Richmond Group and M&C Saatchi has enhanced her expertise and recognition within the high fashion and luxury industry.

She is appreciated for her warm and bright personality as well as for her professionalism, experience and discretion.

Every woman's lifestyle is an inspiration for Sibilla. The constant requirement of being flexible and innovative is what makes Sibilla's work exciting and meaningful. Although she customizes her services upon requirement, she has a refined structure of approach. Her clients' satisfaction is the ultimate ambition and reward.

"I have always been fascinated by fashion and all sorts of applied art because of the synergy between the object and the person. In my work I tell stories of people through what they wear, an extension to the individual, like feathers are to an exotic bird."

Sibilla de Vuono

Modus Operandi

Sibilla begins with an in-depth introduction to understand one's personality, lifestyle, taste, and needs.

LOOK BOOKS

Before organizing and assessing a wardrobe, **she composes outfits** starting from what you already own, photographs each **look** (clothes composition, choice of shoes, bags and accessories) and **categorizes them according to occasions** such as: casual chic, casual relaxed, formal, wow-events, vacation, playa-chic...

Each category of outfits can be assembled in **look-books** with each outfit numbered, and equipped with a full description of each item as well as a jewel suggestion.

This system **simplifies everyday life** giving you a clever and quick visualization of what you own and also proves to be an efficient tool for **easy packing**.

SHOPPING

Sibilla can also help you transform random shopping into intelligent purchases. She will create **relevant mood-boards** and **personalized fashion-reviews** proposing different styles to help visualize what you are looking for. With this service you can remotely do your own buying, decide to be accompanied at any shopping location you prefer, or delegate her to take care of it completely.

SPECIAL OCCASIONS

You will benefit from her connections to the most refined artisans, fashion designers and well-selected newcomers. She can have any custom made accessory or garment done upon demand and **facilitate access to exclusive pieces**, Thus enhancing your unique style.
